

**Nebraska Bankers Insurance and Services Company, Inc.
dba NBISCO Agency Services**

NBISCO is the Nebraska Bankers Association's for-profit subsidiary formed in 1981 to provide competitive insurance products and services to support member financial institutions. Over the past three decades, the product lines have grown, as has the number of services NBISCO offers.

In 1997, NBISCO purchased the Packers Insurance Agency in order that bank-owned insurance agencies would continue to have access to a variety of competitively priced property and casualty products and services through financially stable insurance markets. Packers Insurance Agency's name was changed to NBISCO Agency Services in 1999. In 2002, the agency was moved from Bennington, NE to the Nebraska Bankers Association offices in Lincoln.
